

# Commission Policy – Effective 1/1/2015

*Please note: This commission sheet ONLY applies to fan-produced, non-profit works as an effort to give a break to/show appreciation for independent animators, student video producers, etc. If you are doing any kind of commercial production, you must contact me through my official website for information on my professional rates. Please note that rates have gone up in order to meet increased demand. As a general rule, I am no longer able to provide free voice acting work except for personal friends, charity projects, or other projects in which a prior agreement has been made.*

## **Rates:**

- \$1.00 per line (Generally, a “line” can be counted as each time a character speaks in the script. Some lines will be shorter or longer than others, but it tends to even out.)
- \$5.00 minimum for commissions. So for example, if you just want a greeting recorded for your voicemail or a character birthday message for one of your friends, it would be \$5.
- Commission price includes the raw audio files (to be delivered via e-mail or Dropbox). Files will be delivered in 44100 hz mono mp3 unless instructed otherwise.
- There is no additional charge for doing multiple characters/voices. So for example, if you have one character with 8 lines and another character with 2 lines, it would still just be \$10 total.

**E-mail:** [dizzyangelxx@gmail.com](mailto:dizzyangelxx@gmail.com) (This is also my paypal address. Please note, however, that Paypal does not automatically include the e-mail address of the sender, so either send me a separate e-mail referencing the commission or include your contact info in the “message to seller” box.)

## **In order to best assist you, please include the following information in your request:**

- Brief description of the project
- Information on the character(s) you would like me to play. Picture, age range, voice type, personality type, etc. (If it is a voicematch for an existing character, you may simply include the character's name and the series they are from and I will research if needed.)
- Any specific file naming/saving instructions, if applicable. The default, as mentioned above, will be 44100 mono mp3. If you require .wav files, please let me know in advance.
- Deadline for delivering the files. In general, please allow 2-4 days for the commission to be recorded---but I realize that sometimes people need something in a rush, so if you do need something the next day (for example) let me know before you send any payment and I'll let you know if I can meet that deadline.

## **Retakes & Refunds**

I want to be sure that you are happy with the results. Minor retakes can be done at no additional charge. If there are extensive retakes needed that are not through fault of my own (for example, you later change the script or decide you want the character's voice to sound different), additional charges may apply depending on the extent of work involved. Refunds will be issued if I am unable to complete the project as required. You are welcome to ask for a sample beforehand to be sure you're happy with the voice before all the lines are recorded.
